

## TURKEYS FATE.

### Expulsion From Europe Appears To Be Inevitable.

The Situation Defined—Russia Actively Backing Bulgaria and the Other Powers Passive, For the Present, at Least—Possibilities.

LONDON, October 4.—Diplomatic opinion at this capital is unanimous that Turkey must yield. If the Sultan gives way without fighting he will prove himself a wiser man than the caliph of 1877, who waged a bloody war and lost all the defensive barriers of the Turkish Empire in Europe for his pains. Another campaign would be tolerably safe to leave the Porte without an inch of territory north of the Bosphorus. The situation is thus defined by a member of the Government who was actively engaged in the military operations undertaken by England and at the close of the Russo-Turkish war: "It is absolutely certain," he said, "that Russia is directing this movement. Her soldiers, nicknamed volunteers, are crossing into Roumania in shoals; her officers are already controlling the armies of Roumania and Bulgaria; her cavalry is at this instant actually on the march through Bessarabia for the scene of possible war. She has commenced supplying money to Bulgaria. She is mobilizing two powerful armies and is sending on men and supplies in advance. Before actions like these, the disavowals of ministers go for nothing. If Turkey counts on English help now she makes a mistake. English sympathies are with the Christian races in Turkey, and Salisbury and Gladstone alike recognize the fact. Russia has only to act with moderation to work her will without let or hindrance from this country. There is one contingency likely to involve England, and that is a Russian occupation of Constantinople. This the English will never consent to. Russia can have all she wants short of Constantinople, so far as England is concerned. Turkey is an Asiatic power and a standing offense and menace to the peace of Europe. Let her cross over the straits and all Europe will breathe easier. Gordon's idea of a free state of Constantinople meets a growing favor. England would willingly acquiesce in so obviously safe a solution of the Eastern European question. As long as Russia is locked from the sea by the Dardanelles and Turkey holds the key there must be perpetual danger of war. There ought to be free navigation for all the world, and the only way to bring it about is to place Constantinople and the strait under a European coalition like Belgium and the Danube. It will be rather too much of a good thing to expect the Sultan to give in his adhesion to such an arrangement without resistance. To do this would be to put an end to the Turkish Empire, and the caliphate and all that makes life dear to Mohammedans. The Turks, to give them their due, are ready and willing enough to die in defense of their country and religion. With an empty treasury they continued to bring 600,000 brave, well-armed men into the field in 1877, and gave Russia all the work she wanted and her Roumanian and Bulgarian allies as well. She can go to the same again and better, for the fighting, if there is to be any, will be at the very door almost of the Mohammedan capital, and the fanaticism of the Mohammedan race will be aroused. Our immediate object is to confine the area of disturbance within its present limits and put a stop to Russian and Austrian armaments before war breaks out in earnest. Concert of action between Germany, Italy, France and Great Britain seems the only thing possible to prevent a Russian march on Constantinople and an Austrian advance on Salonika. The Turkish proposal to restore the status quo in Bulgaria is too late. Who's to restore it? The Sultan is the man to do it if he can, and it appears he wants the mandate of Europe. England won't give it, Russia and Austria certainly will not, and does the Sultan suppose Germany, France and Italy are going to take upon themselves the responsibility? There will be no mandate, and Europe is not going to attempt to restore the status quo by force of arms, the only force united Roumania and Bulgaria are likely to recognize. We shall endeavor to have an understanding with Russia and the powers on the subject of Constantinople. I am inclined to think Russia will be reasonable and agree to Constantinople being turned into a free state. That provided for they go ahead and drive the Turk out of Europe, bag and baggage, as soon as they like. We should probably occupy one of the islands along the coast for a navy station in the event of the seat of the Ottoman power being transferred to Asia. We are pledged to defend Asiatic Turkey, and intend to be as good as our word."

AUSTRIA AND RUSSIA. There is some apprehension here as to the possibility of a collision between Austria and Russia arising out of the conflicting ambitions of both countries in European Turkey. The Servians are receiving strong reinforcements from Austria, and the carsons in Bosnia and Herzegovina are being rapidly brought up to a war footing. The Montenegrins are again massing troops on the frontier and the rising in Albania is spreading. The war feeling among the Christian races in Eastern Europe has never before assumed such dimensions as the world now witnesses, and the slightest accident may act like the spark which fires a powder magazine and spreads destruction and ruin far and near.

FATAL LOCOMOTIVE EXPLOSION. MORRISTOWN, N. J., October 4.—The boiler of a locomotive drawing the Long Branch express which left Camden at four o'clock yesterday afternoon, exploded near Brown's mills, fatally scalding the engineer, John Curtis, of Point Pleasant, and injuring the fireman. Other persons are reported injured, but no further particulars can be obtained here at present.

Caught in the Act. INDIANAPOLIS, IND., October 4.—The police made an important arrest last night in the person of Isaac Reynolds, who was caught in the act of making half-dollars at his residence on South street. Some days ago the officers received a "pointer" and last night they surrounded the house, and peering through the windows saw Reynolds melting the composition and running it into the molds. He is known to have been engaged in making half dollars, quarters, dimes and nickels for some time past.

## THE HEATHEN CHINEE.

He Proposes to Spread Himself More Generally Throughout the Country.

PITTSBURGH, PA., October 7.—There arrived in this city today a particularly respectable and well-dressed Chinaman, giving the name of Lee Wah, who addressed a citizen in excellent English, making inquiries for the locality of a laundryman of his own nationality. His business-like appearance caused the gentleman, through curiosity, to engage him in conversation, during which Lee Wah took from his pocket a paper, reading from it the following names and inquiring their locality, viz.: American Iron-works, Black Diamond Steel-works, Carnegie Bros. & Co., and also the names of several other prominent manufacturing firms of the city, particularly inquiring for Booth & Flynn, contractors. To the question as to whether he intended locating here he replied, "No, but some of my people may. I am en route to Washington on City, from San Francisco. I have been in this country eleven years and have been engaged in the real estate business in Frisco, and accumulated considerable property. Shortly after the massacre of my people in Wyoming, a largely attended and secret meeting of Chinamen was held in San Francisco, at which resolutions were passed, the object being to better the condition of the Chinamen in this country. It was decided to scatter more widely over the United States, freeing ourselves from continued persecutions and cruel treatment, such as experienced west of the Rocky Mountains. A resolution was unanimously adopted by which six English speaking members were authorized to proceed East, visit manufacturing cities and ascertain what could be done toward securing employment for a limited number. Each member of the committee on reaching Chicago was assigned to a different district. I am known as No. 3. My district is Cincinnati, Youngstown, Alliance, Wheeling, Pittsburgh, Connellsville, the lake regions and from thence to Washington, where I am to report to the Chinese embassy the result of my labors. Other members of the committee visit Boston, New York, Philadelphia and other cities. Each member is authorized to negotiate for the purchase or rental of a certain quarter in each city. To be followed by my countrymen. Each agent is empowered to enter into contracts with mill owners and general contractors. My visit to Pittsburgh is for that purpose. I have been fairly successful in Cincinnati and Wheeling, but accomplished but little in Youngstown. I intend to use every effort in this city and have every reason to believe I can establish a colony of at least 500 in this city alone. Understand me, I don't mean to say that these men are to work at reduced wages to the injury of other workmen. I consider \$1 per day excellent wages, and I am led to believe that manufacturers think the same, and for that reason I can negotiate with the latter to employ my people." Lee Wah said that he had finally determined to visit the Connellsville coke fields first, and he has left for that locality, with the intention to return to the city later in the week.

FICKLE FRANCE. The Recent Elections Anything but Favorable to the Perpetuity of the Republic. PARIS, October 7.—Owing to the number of Cabinet Ministers defeated at the elections on Sunday last for seats in the Chamber, it will be necessary for the Cabinet to be remodeled or resign before the Chamber meets. If the Radicals ally themselves with the members of the right they can overthrow ministry after ministry, leaving France in a permanent crisis which will seriously jeopardize the existence of the Republic. The Conservatives who have made extensive gains are the monarchists of one faction or another. Some of them are adherents of the Comte de Paris; others of the Bonaparte family. They would like to see a monarchial government restored in France. The Republicans or Moderates are the supporters of the present Ministry with Brisson and De Freycinet as the representative leaders. They are likewise partisans of M. Jules Ferry, who was formerly Prime Minister. The Radicals look to Clemenceau as their leader. They are in favor of the Monarchists, and the overthrow of the Republic, but only that they may give the Government more radical leanings. The Republicans wish to maintain a parliamentary form of government, but the Radicals wish to abolish the Senate and substitute in place of the chambers as at present constituted some body like the old convention of 1789. The loss of seats by the Republicans will lead to a reconstruction of the present Ministry. It seems doubtful at this time whether the ministry can gather about it a working majority in the new chamber. Shrewd observers, in fact, believe that the new Cabinet will be short lived; that no ministry can be patched that will long command support and that consequently there will be another dissolution and another general election in the near future. M. Manger, Waldeck Rousseau, Legrande and Herault, who were defeated in the election, have resigned their seats in the Chamber. Disorders were renewed last evening. Fully 4,000 persons assembled in front of the Gaulois office shouting, "Vive la République." "A bas le Gaulois." Bands of youths paraded the streets, crying the Marseillaise and waving red flags. The police finally succeeded in dispersing the mob, being aided by a heavy rain. It is rumored that Royalist successes will insure the expulsion of the Ottoman Princes and others. It is expected that a provisional Ministry will be formed including M. Clemenceau and M. Floquet. The number of Conservatives elected is 181. It is believed that the second balloting will raise the number of Conservatives to 210. M. Rochefort argues that the Republican defeat is due to the Tongin expedition and it is, therefore, necessary to quillotine Ferry the first thing. The Republican newspapers generally are disposed to make a scapegoat of Ferry.

Minneapolis Walkout. MINNEAPOLIS, MINN., October 7.—The District Court convened yesterday morning, Charles H. Graves, Judge. Twenty-first case on docket is the State of Kansas vs. Minnie Wallace Walkup. By mutual consent this case was set for trial October 19. About the 15th inst. the present jury will be discharged and a special venire will be issued, from which a competent jury will be impaneled. Judge Graves is considered as fair and impartial and a judge as could be desired. He has held the present position for five years, being re-elected a year ago without any opposition whatever. Hon. D. M. Dodge, of Hazelhurst, N.Y., has been added to the counsel for the defense.

## THE ST. LOUIS STRIKE.

A Bad Time for Visitors to the St. Louis Fair.

St. Louis, Mo., October 8.—The executive committee of the Knights of Labor and the executive committee of the street car strikers were in session this morning initiating new members into the order and perfecting plans for the conduct of the fight. The executive board say there are no new developments and the men are sanguine of success. They declared that only the roughest element could be employed by the managers of the car company at present. On the other hand, the officials of the road are engaging new men and sending cars out under them, and such of the old employees as are willing to work are assured protection. Cars on the Olive and Market streets and Franklin avenue and South St. Louis lines, which have not been affected by the strike, are running regularly and cars are being sent out on the other roads as fast as men can be obtained to run them. Very unexpectedly quite an unruly disposition was manifested among the strikers yesterday afternoon, and in several cases violence was used against the new men running. This spirit cropped out chiefly on the Cass avenue road and five drivers were dragged from the cars and roughly handled. Several of the strikers were arrested. A disposition to interfere with the running of cars was manifested on the Washington avenue line and the President of the road as a precaution ordered all cars turned in at dark. A crowd of strikers left Turner Hall, which is their headquarters, late last night and went to the Market street stables and endeavored to persuade the men of that road to join them, but their mission failed. But few cars were running last night on the lines involved, but the managers generally expressed the belief that they will all be in good shape today.

GOT OFF EASY. The Grand Jury Fail to Indict the Rock Springs Rioters. CHEYENNE, WYO., October 8.—The Grand Jury of Sweetwater County, which found no indictments against the Rock Springs rioters, made the following report: "We have diligently inquired into the occurrence at Rock Springs on the 2d day of September last, and though we have examined a large number of witnesses, no one has been able to testify to a single criminal act committed by any known white persons on that day. Whatever crimes have been committed, the perpetrators thereof have not been disclosed by evidence before us, and, therefore, while we deeply regret the circumstance, we are wholly unable, acting under the obligation of oaths, to return indictments. We have also inquired into the causes that led to the outbreak at Rock Springs. While we find no excuse for the crimes committed there appears to be no doubt of abuses existing that should have been properly adjusted by the railroad company and its officers. If this had been done the fair name of our Territory would not have been stained by the terrible events of the 2d of September." The Union Pacific Railway Company is now employing Mormons at its mines at Almy and Rock Springs.

ROCK SPRINGS, WYO., T. October 8.—There is great excitement here over the release of the alleged rioters. The accused were met on their return from Green River last night by several hundred men, women and children and treated to a regular ovation.

SHARP SWINDLING. Two Bogus Checks Cashied by Banks in Montana. PORTLAND, ORE., October 8.—A simple but clever and successful bank forgery was discovered today. Some two weeks ago a stranger, dressed like a well-to-do country merchant, came to a large printing and lithographing house here, and, representing himself to be Cashier of the First National Bank of Oregon, ordered one thousand lithographed certificates of deposit, one thousand identification certificates and one thousand envelopes with the name of the bank thereon. The printer agreed to have them done on a certain date, when the stranger called for them, paid the bill and took them away. Today one of these bogus certificates came to the First National Bank of this city from the Helena, Mont., bank for collection. It was for \$3,500, payable to O. C. Whitney. The forged identification certificate made the swindler's work of getting the certificate cashed easy. It is known here that another certificate of \$3,500 was cashed at Butte, Mont. It is not known whether more than one man is engaged in the swindle. The man who ordered the stationery is about forty years of age, about five feet nine inches, black hair and mustache. The signature of H. F. Merrill, cashier of the Albany Bank, to the certificates is rather a clumsy forgery.

KNIGHTS OF LABOR. Wonderful Increase in Membership the Past Year. HAMILTON, ONT., October 8.—The General Assembly of the Knights of Labor resumed business yesterday morning. It is expected that the session will last nearly two weeks. The report of the General Secretary and Treasurer showed the rapid growth of the order during the past year; that the organization has been firmly planted in England and Belgium, and that there had been a steady increase in the number of assemblies in the Southern States. It recommended that workmen should work only eight hours, regardless of wages paid. The question of wages would right itself in a few months in the necessary employment of surplus workmen in consequence of the shortening of the hours of labor. The increase in membership during the year was 700 per cent. The following is a statement of the growth of the order during the year ended June 30, 1885: Assemblies organized, 7,041; reorganized, 31; lapsed, 164; district assemblies organized, 19; lapsed, 2; local assemblies in good standing, 1,610; members in good standing, 104,069 in arrears, 7,329; total, 111,395. The balance sheet shows the following: Total receipts, \$48,781; total expenditures, \$39,592; balance on hand July 1, \$9,279. R. F. Trevellick, of Detroit, delivered an address on "Pauperism."

The Consul's Denial. WASHINGTON, October 8.—The Consul of the United States at Guaymas, Mexico, informs the Department of State that the statements made by various newspapers that there are a thousand Chinamen in his district and that the same were being surreptitiously introduced into the United States in contravention of the restriction act of Congress, are untrue, as the total number of Chinamen in that consular district does not exceed 125 and these are nearly all employed in shoe and tailoring factories and have no desire to leave their present profitable positions. No additions are being made to their number.

## TRICKS ON THE TRACKS!

Dangers from Which Engineers Save the Public and Themselves.

(The Railway Review.) One who is accustomed to railway traveling can scarcely realize how much he is dependent for safety upon the engineer. Added to the responsibility of their station, engineers are also in constant danger of accidents caused by the tricks of jealous rivals. This rivalry, it is said, sometimes prompts to the doing of utterly mean tricks. A Nickel Plate engineer after his very first trip was laid off because he had "cut out" all the bearings of his engine. He was reinstated, however, after he proved that some rival had filled his oiling can with emery. Another new engineer was suspended for burning out the flues of his boiler. Through grief at the loss of his position he died, and then a conscience-stricken rival confessed that he had put oil in the tanks so that it foamed and showed danger at the top gauge, when in reality there was scarcely a quart in the boiler! These intense jealousies, together with the terrible anxiety incident to their work, have a terribly straining effect on the nerves, and statistics tell us that though Locomotive Engineers may look strong and vigorous, they are not all a healthy class. Ex-Chief Engineer A. S. Hampton, Indianapolis, Ind., (Div. 135) has apparently been a very hearty man, but he says: "The anxiety, strain and jolting came near finishing me." His sufferings localized in catarrh of the bladder, but he used Warner's safe cure faithfully for twenty weeks and now exclaims: "I am a well man." T. S. Ingraham, of Cleveland, O., Assistant Chief Engineer, and other prominent members are also emphatic in his praise. The Locomotive Engineers' Brotherhood has 17,000 members and 243 divisions. Its headquarters are in Cleveland, O., where Chief Engineer Arthur for twenty years has exercised aim at dictatorial sway. It was organized in August, 1883, by the employees of the Michigan Central. It has given nearly two million dollars to the widows and orphans of deceased members.

—We had the pleasure of a call recently from four very remarkable brothers. They were Messrs. A. G. J. W., H. J. and D. P. Hightower, and aged seventy-nine, seventy-seven, seventy-five and seventy-three years—a total of three hundred and four years. They have in all thirty-four children, sixty-one grandchildren, and two great-grandchildren. The four brothers are in good health, and there is not thirteen pounds' difference in weight between the heaviest and lightest. The most remarkable thing is that none of them was ever drunk, or played a game of chance, or took a dram in a bar-room. They are all members of the church and lead pious, godly lives.—La Grange (Ga.) Reporter.

—He shut up: "I beg your pardon, sir," said Mr. Swell to a friend with whom he was holding a heated argument. "I beg your pardon, sir; I ought to understand this matter better than you. I am a graduate of two colleges, sir." "You remind me," replied his friend, "very much of a calf my father used to own who had the milk of two cows." "Why, how was that?" "He was a very large calf."—Lynn Union.

—Pop.—The way it appeared in the proof-sheets. The argus-eyed proof-reader, however, knew the quotation intended and changed it to read: "Shoot Folly as she flies." Of course it was an error, yet how many are daily committing much graver errors by allowing the first symptoms of consumption to go unheeded. If afflicted with loss of appetite, chilly sensations, or weakness, or if it is noticed to delay a single moment the use of Dr. Pierce's "Golden Medical Discovery," the great and only reliable remedy yet known for this terrible fatal malady. Send two letter stamps for Dr. Pierce's complete treatise on this disease. Address World's Dispensary Medical Association, Buffalo, N.Y.

Prof. Trilobite (eloquently): "Yes; all things came by chance, and the great globe itself, like a mushroom, sprang up out of a wet nurse in a twinkling. I should like to know, please, sir, where the seed came from."

—Laugh and Grow Fat.—Is a precept easily preached, but not so easy to practice. If a person has no appetite, but a distressing nausea, sick-headache, dyspepsia, bilis, or any other ill resulting from inaction of the bowels, it is impossible to get up such a laugh as will produce a permanent cure. In order to laugh satisfactorily you must be well, and to be well you must have your bowels in good order. You can do this and laugh heartily with Dr. Pierce's "Pleasant Purgative Pellets," the little round, sugar-coated pills, which are the best promoters of health and bowels and best promoters of jollity.

MADAME MODJESKA has turned translator and will Polish up Shakespeare.—Boston Post.

## DR. JOHN BULL'S

Smith's Tonic Syrup FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

## Many a Lady

is beautiful, all but her skin, and nobody has ever told her how easy it is to put beauty on the skin. Beauty on the skin is Magnolia Balm.

Indigestion Cured.

I suffered for more than five years with indigestion, scarcely able to retain the simplest food on my stomach. I declared in flesh, and suffered all the usual depression attendant upon this terrible disease. At last I found relief in a simple remedy, and I can now eat all that I desire, and I can retain it without difficulty. Now my health is good, and I am able to do all the work of a man. I can eat without difficulty. Take the prescribed dose after eating. Sold by all druggists. Treatise on Blood and Skin Diseases mailed free. THE SWIFT DRAWER, Atlanta, Ga. N. Y., 137 W. 2nd St.

DEALERS vs. CONSUMERS.

Mr. Chestnut—Mr. Jenkins, why don't you sell some of these other makes of Frazee's? Because our customers ask for the FRAZEE'S. Mr. C.—I'd have you know, sir, that one box of the FRAZEE'S costs as much as nearly as much as all the other boxes of these other makes, while we sell them all for the same price. Mr. J.—One box of the FRAZEE'S is worth as much as three boxes of these other brands. Mr. C.—That is just the point. By selling these other brands you not only make twice as much for us on each box as you make on the FRAZEE'S, but your customers have to buy twice or three times as much of it as they would of the FRAZEE'S.

## Listen to Your Wife.

The Manchester Guardian, June 28, 1885, says: As one of the "Windows."

Looking on the woodland ways! With clumps of rhododendrons and great masses of May blossoms!!! "There was an interesting group. It included one who had been a "Cotton spinner," but was now so "Paralyzed!!!" That he could only bear to lie in a reclining position. This refers to my case. I was first Attacked twelve years ago with "Locomotor Ataxia" (A paralytic disease of nerves) but I was cured and was for several years barely able to get about. And for the last five years not able to attend to my business, although many things have been done for me. The last experiment being Nerve stretching—Two years ago I was voted into the Home for incurables! Near Manchester, in May, 1888. I am now "An Advocate." "For anything in the shape of a patient!" Medicines? And made many objections to my dear wife's constant urging to try Hop Bitters, but finally to pacify her—Consented!!

I had not quite finished the first bottle when I felt a change come over me. This was Saturday, November 3d. On Sunday morning I felt so strong I said to my room companions, "I was sure I could."

"Walk!" So started across the floor and back. I hardly knew how to contain myself. I was all over the house. I am gaining strength each day, and can walk quite safe without any "Sticks."

I am now at my own house, and hope soon to be able to earn my own living again. I have been a member of the Manchester "Loyal Exchange" for nearly thirty years, and was most heartily congratulated on going into the room on Thursday last. Very gratefully yours, JOHN BLACKBURN, Manchester (Eng.) Dec. 3d, 1888. Two years later an perfectly well.

## Prose and the Scoundrels!!!

If when you call for Hop Bitters the druggist hands out anything but "Hop Bitters" with a green cluster of Hops on white label, show that druggist as you would a viper, and if he has taken your money for a bogus stuff, indict him for the fraud and sue him for damages for the same, and we will return your money for the conviction.

U. S. Court injunction against C. D. Warner, Reading, Mich., and all his associates and agents, Druggists, and other imitators, taken morning, HOP BITTERS MFG CO.
